

Solar System Project

Your project is to create a physical or digital poster of the planet or astrological body you were assigned in class. Your MSET group will have 3 weeks to complete your project during MSET on Fridays and on your own time. Your poster needs to have the following:

1. An informational report.
2. Photos with captions.
3. Subtopics about your subject.
4. Other informational text features, such as "Fun Facts," "For more information," and "Links."
5. Diagrams/Tables/Charts.

You will be graded on the scholarliness of your research and writing, as well as the presentation of your work. You will also be assessed on your work behaviors and teamwork in class.
