

Restate Problem

Restate the problem in your own words. Be sure to include all (only) relevant information. Make sure you are clear about what the problem is asking.

Model/Graph

Make a model, picture, or graphical representation of the problem. Be sure to label everything accurately and clearly.

Problem

Copy the problem exactly how it is stated.

Show Work

Solve the problem and show all of your work. Be neat, and show step by step. Use correct mathematical notation.

Solution

Write the solution to the problem in a complete sentence.

Reflection

Reflect on what you have learned. Write at least 3 sentences.
